

A photograph of three surgeons in an operating room, wearing masks and caps, focused on a procedure. The image is overlaid with a semi-transparent red and blue gradient. A white, stylized surgical instrument shape is positioned behind the company name.

**VASMED**

L I F E F O R W A R D

# Mission

To design and manufacture high-quality, innovative **vascular medical devices** that improve patient outcomes and expand access to life-saving technologies worldwide.

## Core Values

-  Commitment to Quality & Patient Safety
-  Innovation & Continuous Improvement
-  Regulatory Excellence
-  Global Accessibility
-  Ethical & Responsible Manufacturing

# History / Growth Journey Timeline

# Company Overview

We, **Vasmed Technologies Ltd. FZC**, are a UAE-based medical device manufacturing company with over 25 years of expertise in designing, developing, and manufacturing Class III medical devices. Founded in the UAE in 2003, Vasmed is a manufacturer specializing in advanced interventional cardiology and peripheral vascular products. Operating from the Fujairah Free Zone, the company designs, develops, and manufactures CE certified high-quality balloon catheters, coronary stents, and related vascular devices for global markets in ISO 13485 and ISO 9001 certified spaces.

With a strong commitment to innovation, regulatory compliance, and precision manufacturing, Vasmed serves healthcare providers and distributors across Europe, the Middle East, Asia, and Africa. The company combines advanced clean-room production facilities with international quality standards to deliver reliable, safe, and cost-effective cardiovascular solutions. Its strategic location in the UAE allows efficient export to key global markets, positioning the company as a bridge between innovation hubs and emerging healthcare systems.

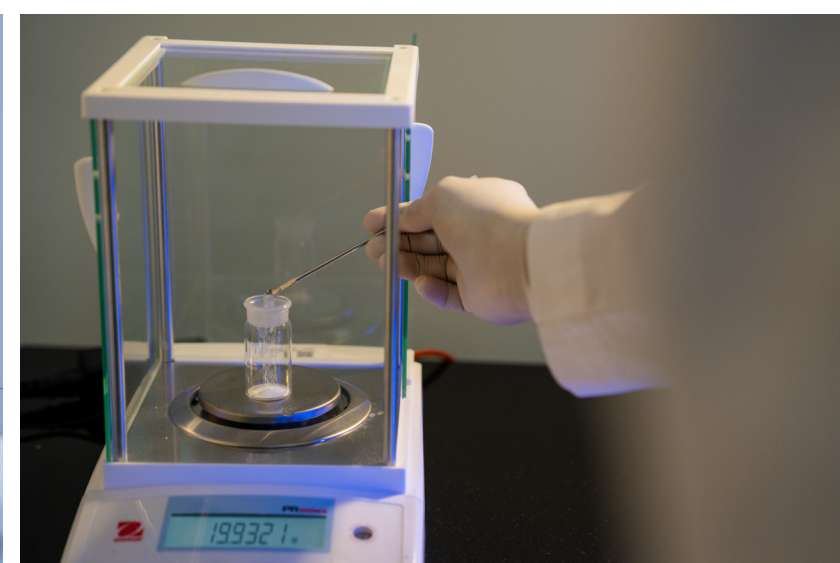

## Certifications

# Operations Overview

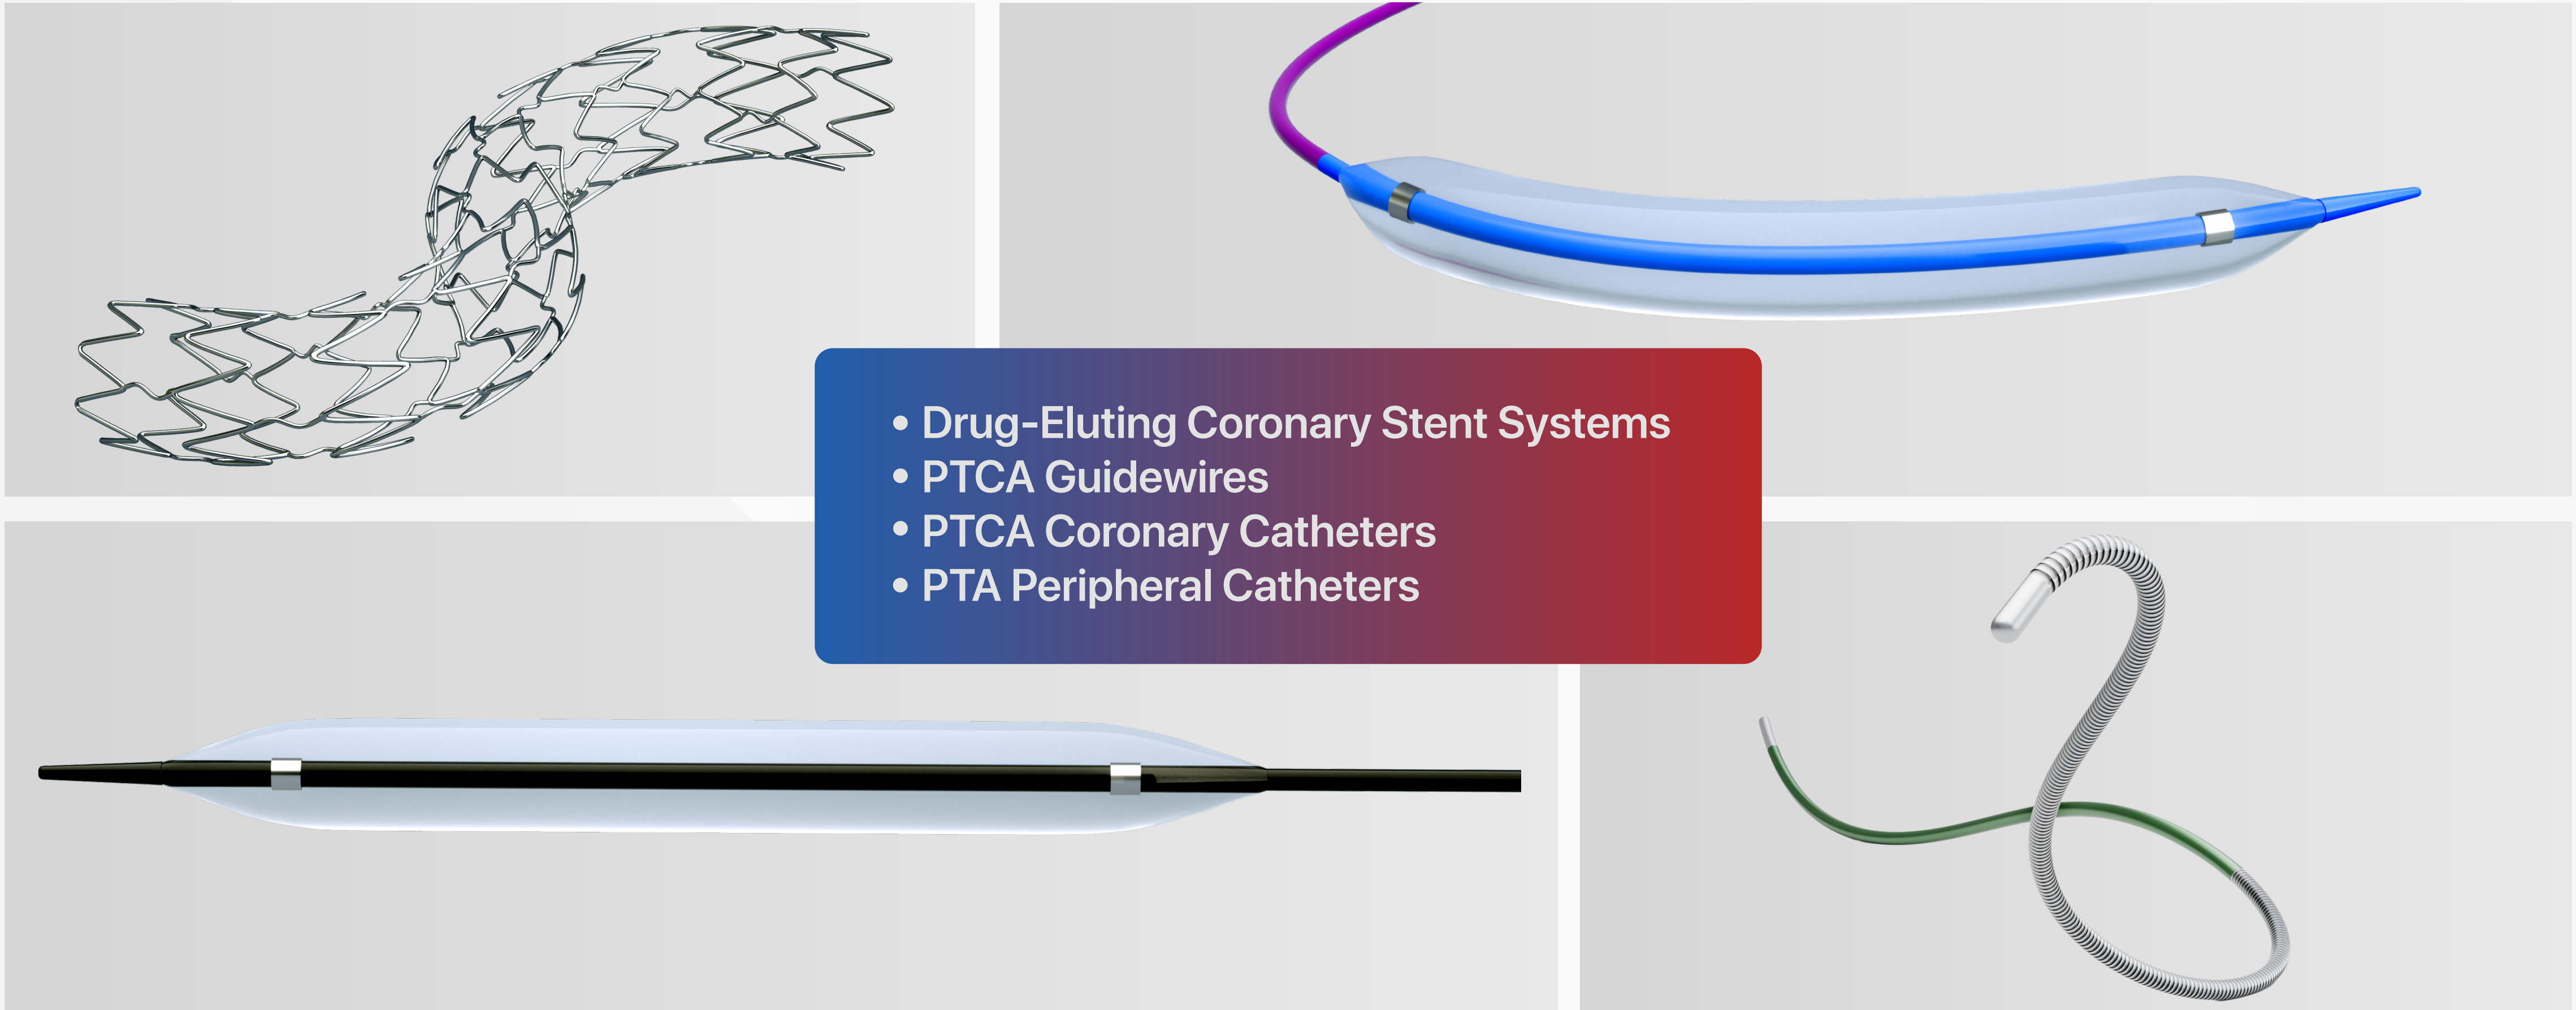

## Operations:

- UAE MOH Good Manufacturing Practices Certified Facility
- Total built-up area of 50,000 sqft.
- Total Production Area: 20,000 sqft.
- Trained and skilled manpower with 20+ years of experience in product manufacturing
- ISO 13485:2016 compliant Quality Management System to ensure all process and controlled and measured for continuous improvement
- ISO Class 10,000 classified cleanrooms, validated as per ISO 11104 standards to ISO 14644-1 standards
- ISO 11135:2014 certified ETO sterilization facilities

# Products

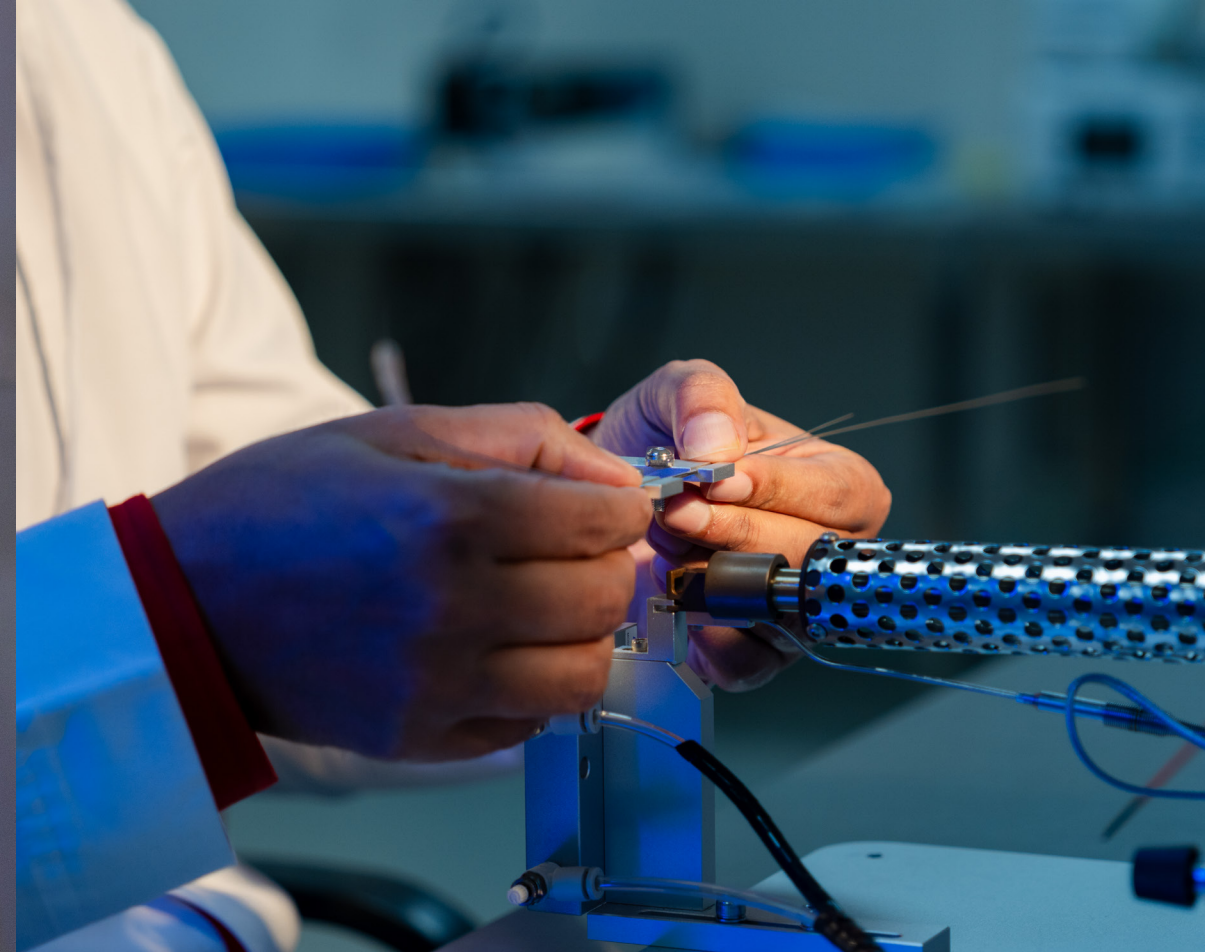

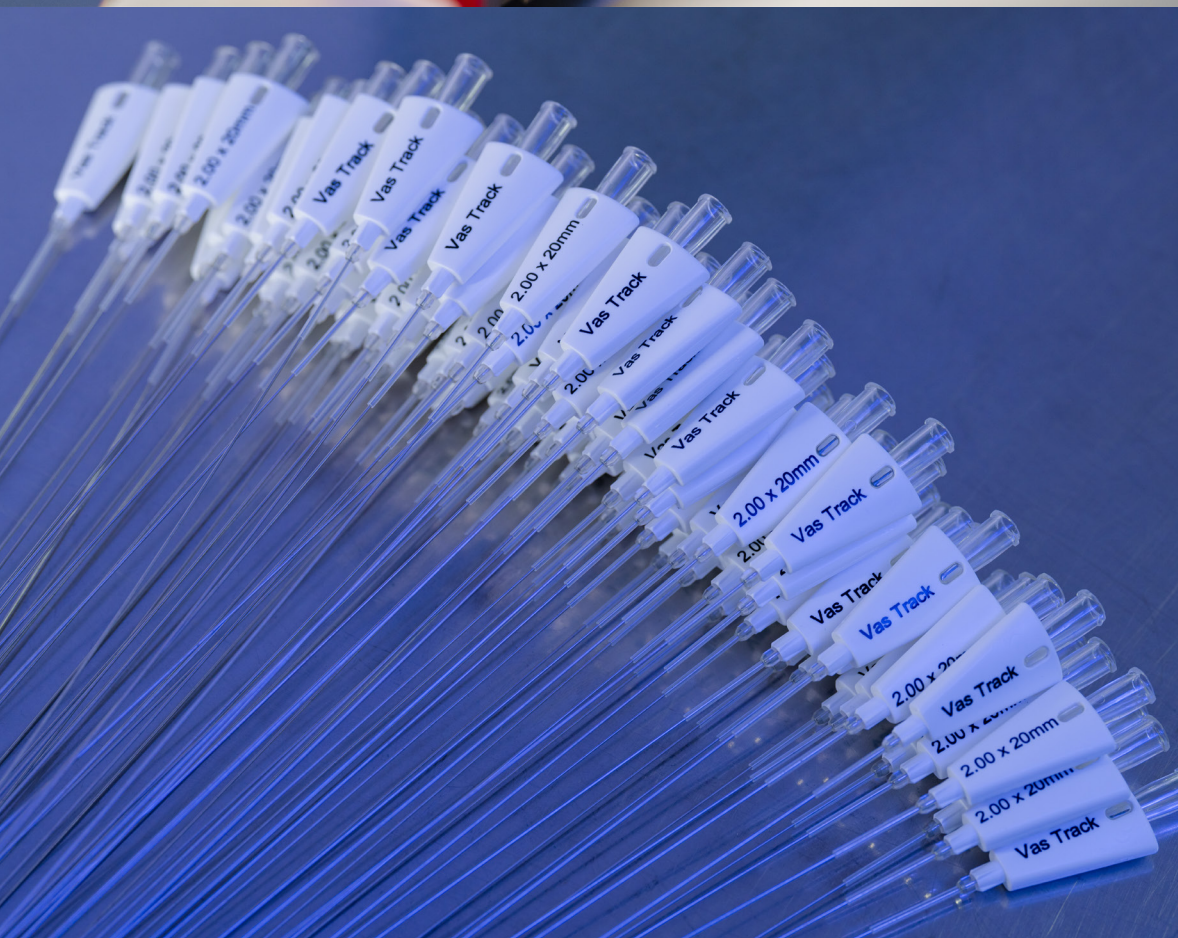

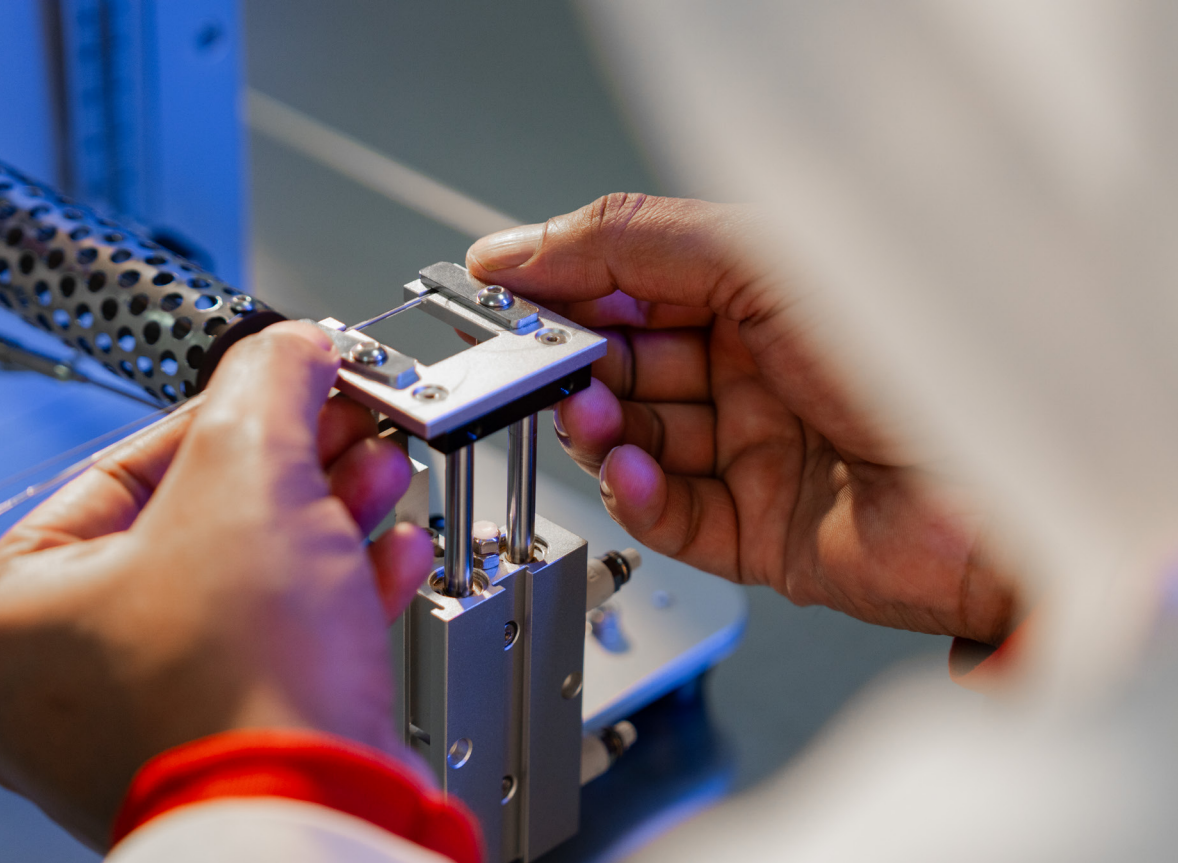

Manufacturer specializing in the **designing, developing, and manufacturing** of class III advanced interventional cardiology and peripheral vascular products

- Drug-Eluting Coronary Stent Systems
- PTCA Guidewires
- PTCA Coronary Catheters
- PTA Peripheral Catheters

# Services

- Design, Development, and Manufacturing of Interventional and Life-Saving Medical Devices
  - PCB Design and Development
  - Medical Firmware and Software
  - OEM Manufacturing
  - IEC/ISO Certification and Testing
  - Regulatory & Performance Support Services
  - Optical and MEMs Systems
  - Distribution
- 
- A person in a white lab coat is shown from the side, working with a complex medical device. The device has various components, including a control panel with several buttons and a vertical stand. The background is a blurred laboratory or factory setting with shelves and equipment. The overall lighting is soft and professional.

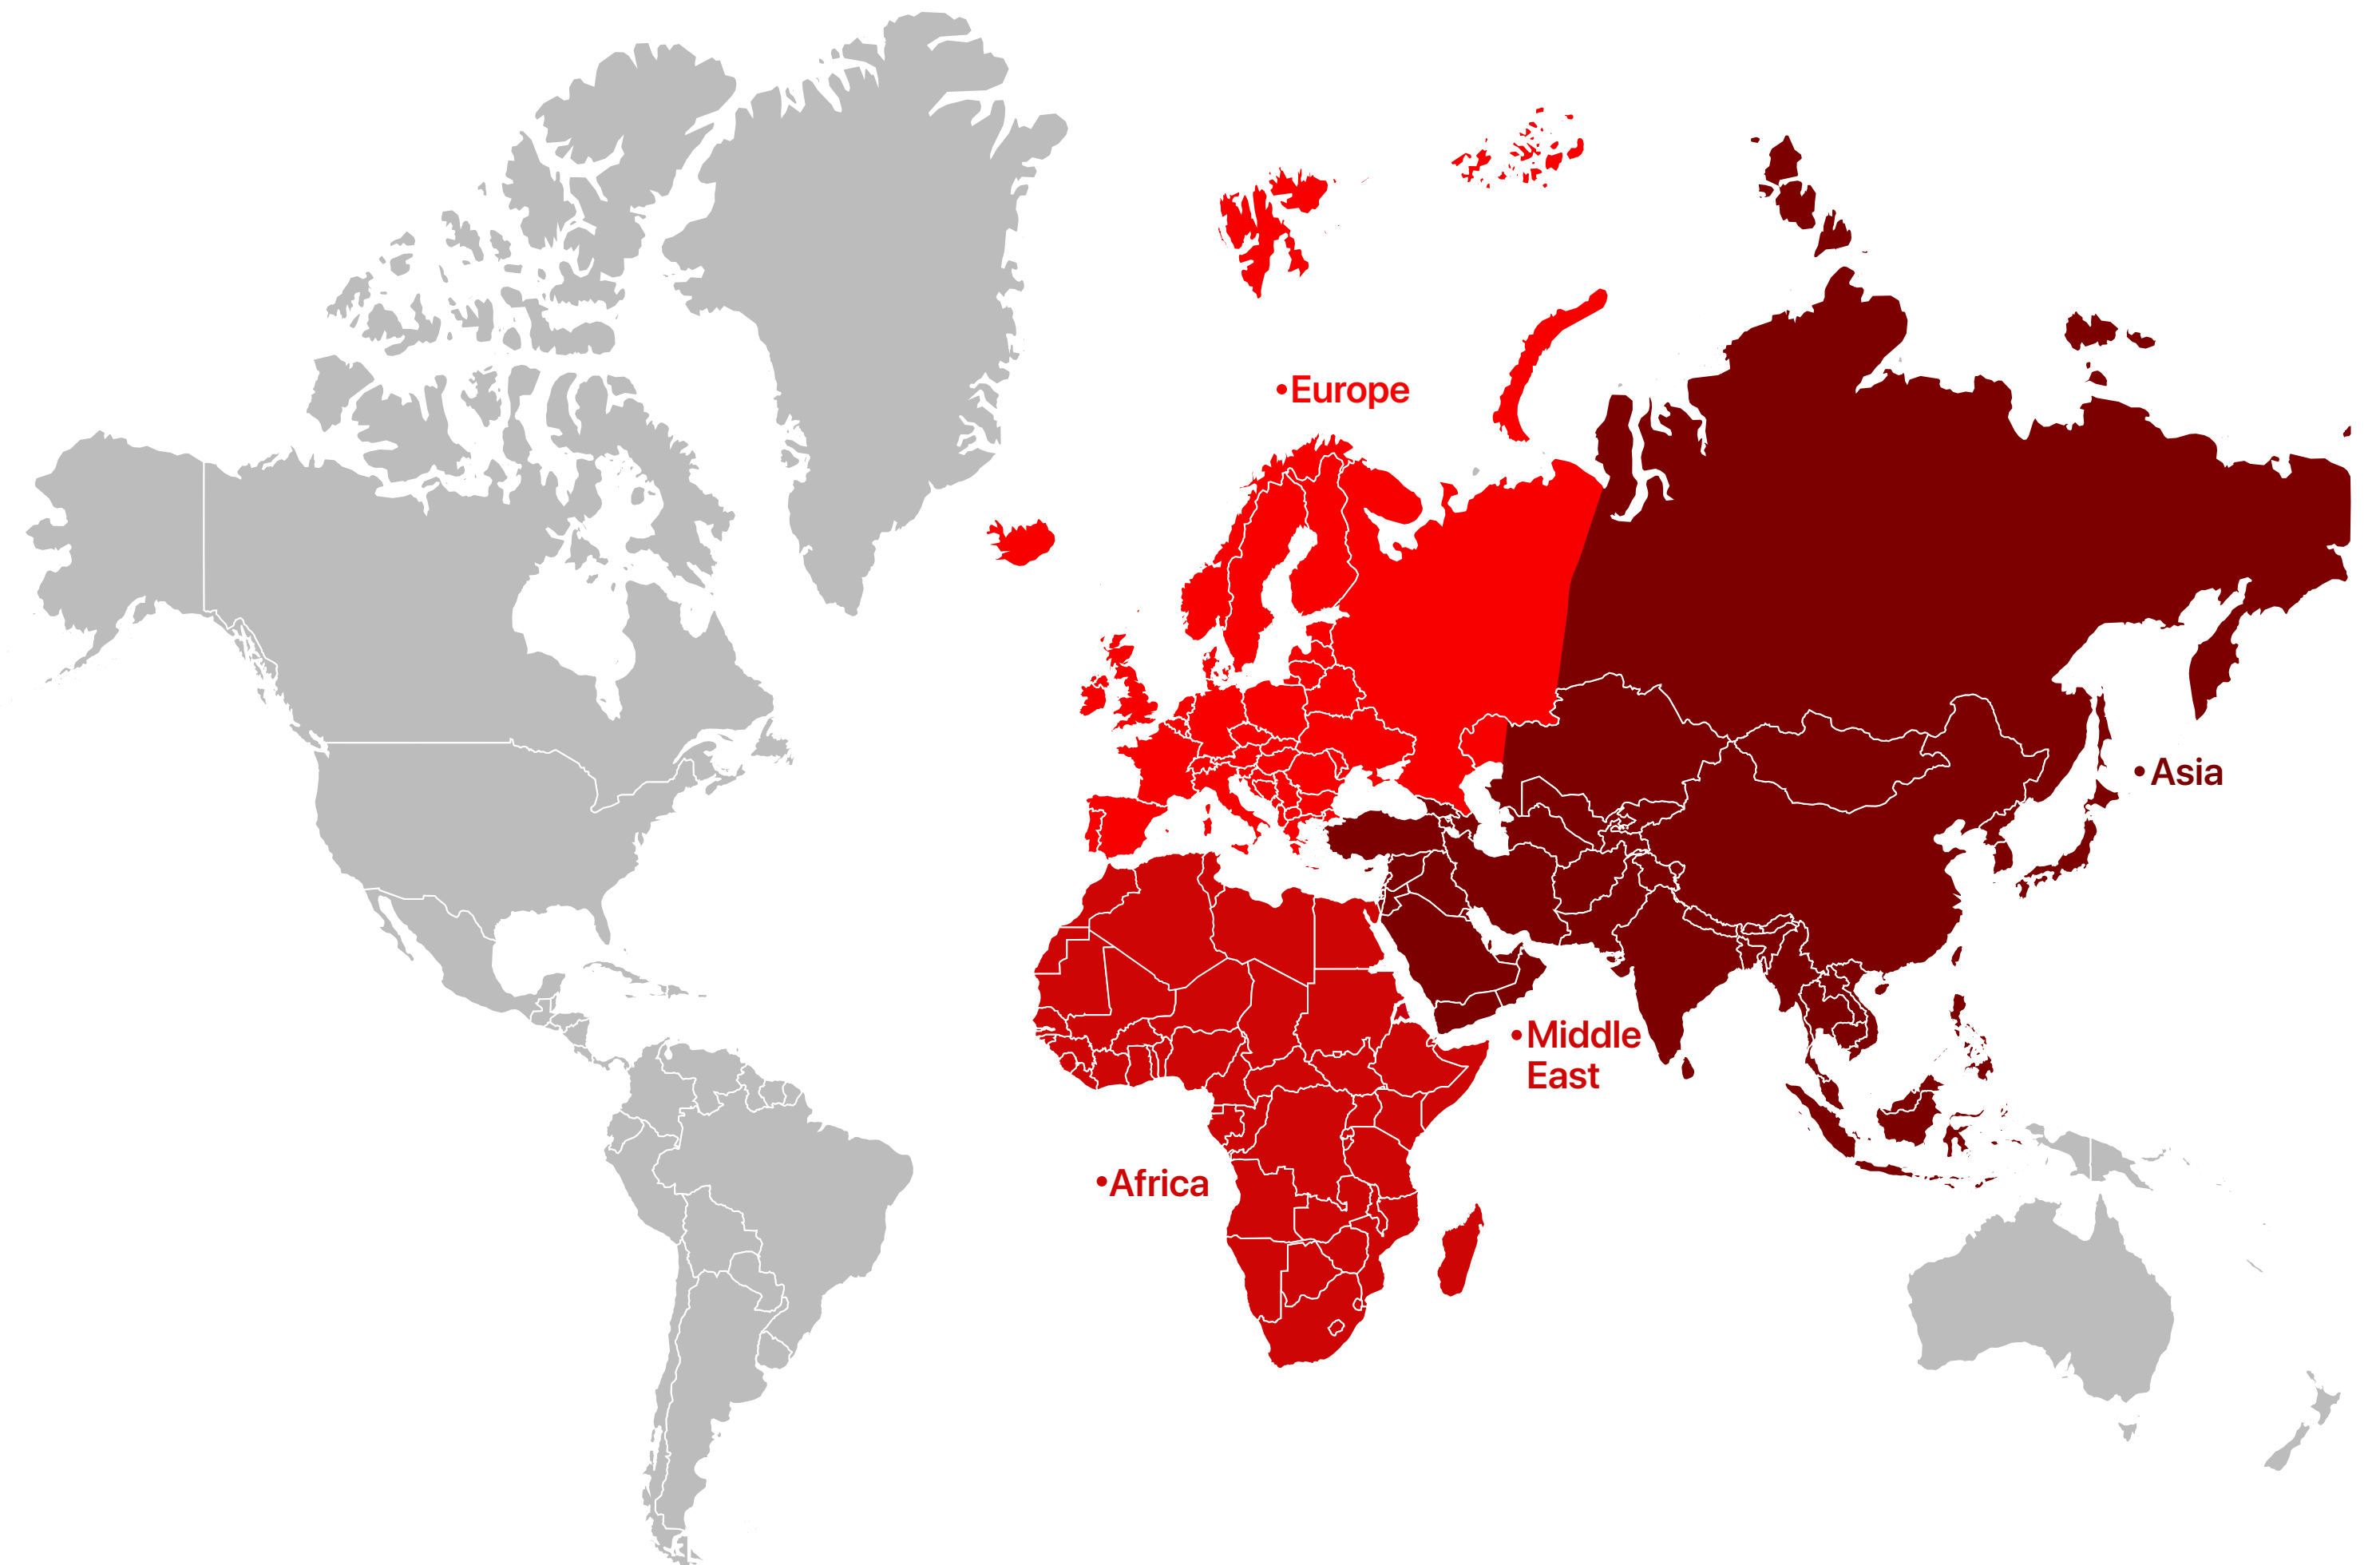

# Distributorships

**Vasmed** exports its products to multiple international markets across:

Through our offices, manufacturing facilities, and selected international distributors, our products and technologies support healthcare providers across the **Middle East, Europe, Africa**, and beyond. We continue to expand our global distribution network by building long-term partnerships with trusted healthcare distributors and institutional partners.

- Europe
- Middle East
- Asia
- Africa
